

## The Evidence-Based Research Network

- Generally, there is limited use of existing research in the preparation, funding or publication of new studies.
- The 'Evidence-Based Research Network' (EBRNetwork), seeks to address this issue.

<http://ebrnetwork.org/>

# Mandate

- **To encourage adoption of the following:**
  - **no new studies without prior systematic review of existing evidence**
  - **efficient production, updating and dissemination of systematic reviews**

# Actions

Promote participation and awareness of The Network

Educate others about EBR

Publish on EBR issues

Support efficient conduct of Systematic Reviews

- International collaboration of how to automate the process of preparing systematic reviews.
